Note: Please return the attached form about ABMDI training with your meeting reservation.

Note: Education Committee and Board of Directors meetings are open to all members who would like to attend.
Idaho State Association of County Coroners

Our state coroners association would like to make intensive, valuable training available to all county coroners in 2016, before it becomes mandatory and we are forced into a timeline we do not like. The American Board of Medicolegal Death Investigators offers a basic certification exam which your association education committee would like to prepare you, (and your deputies if you so desire), to take by October, 2016.

This certification is the initial certification that provides official recognition that an individual has acquired basic knowledge and demonstrated proficiency in the standards of practice necessary to properly conduct a competent, thorough medicolegal death investigation.

The ISACC will pay for you as coroners to attend the classes (including travel and meals) and for all the testing fees. You will need to pay for your own deputies if you want them to take the classes. You will need to sign up by early 2016, and we will begin our class offerings at the Mid-Winter Conference on the afternoon of the second day.

The dates for the classes are: February 2, 2016 from 1315 to 1630 in Boise, April 18 – 20 in Coeur d’Alene, and October 10 -12 in Idaho Falls, with the 12th being set aside for ABMDI Registry testing. If you Google ABMDI you can access the suggested reading list and get started.

Please fill out the attached “Intent to Attend” form and return it with your February 2016 Conference registration, or call or email Bonnie Burlage, Fremont County Coroner @ 208-652-3939(home) or 208-351-3939(cell) or bburlage@ida.net, with your registration information. Thanks, and we hope to hear that all of the county coroners who are not yet certified will take advantage of this great opportunity.

INTENT TO ATTEND:

I would like to attend the ABMDI certification preparation classes offered by ISACC in 2016.
