21,350 Hours Donated  
by Low Income  
Earners

Nearly \$350,000 of  
time donated to help  
our community

Investment in your  
Community, helps you  
be a better member of  
the Community

# ***Head Start***

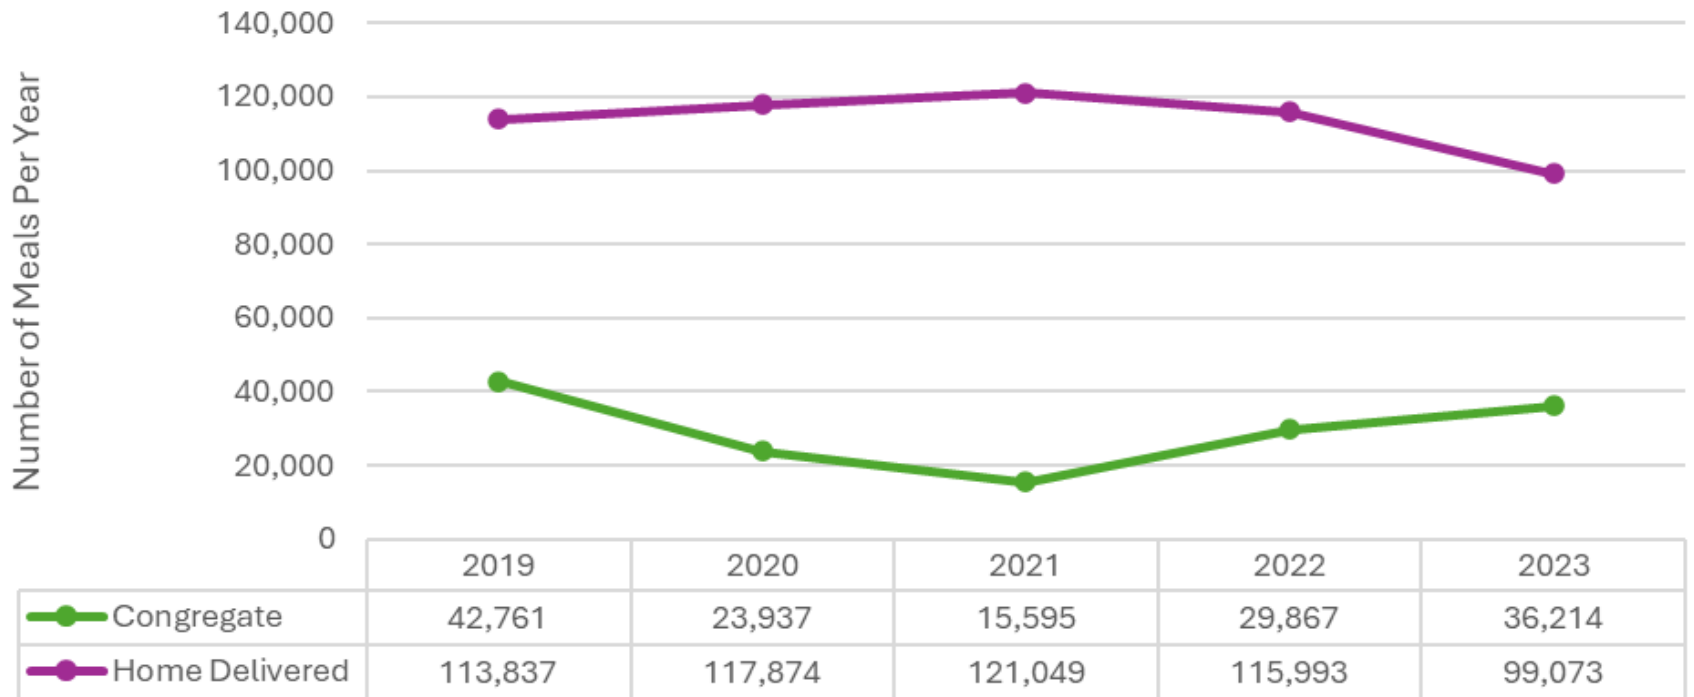

## ***Head Start***

***...Head Start Children are more likely to graduate from High School, and Head Start Graduates are 36% more likely to graduate from a University. These children have improved social, emotional, and behavioral development; and are better prepared to be parents themselves than similar children who do not attend the program. Enrolled children have significantly fewer child welfare encounters related to sexual or physical abuse between the ages of five and nine than those who don't attend. This is a federally funded program, and many states across the nation - although not yet Idaho add investments in their Head Start programs. - IDHSA Annual Report 2023***

# ***Area Agency on Aging***

## Congregate vs Home Delivered Meals

***The Cost of food has forced the Senior Centers in your counties to reduce the number of days they serve meals. Most went from 7 down to 5 days.***

# *Thank You*
