**Thriving Today and in the
Future**

Challenge Tree

Heat waves straining energy infrastructure

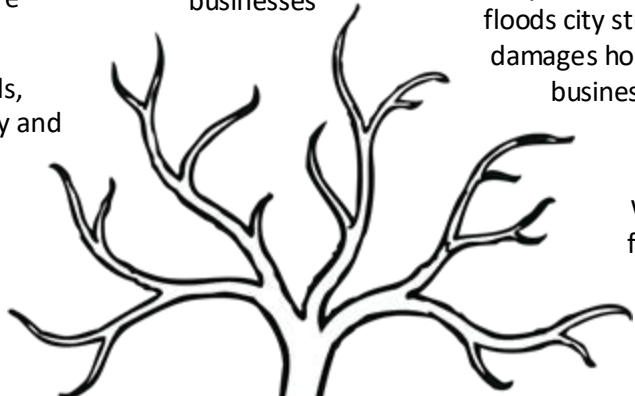

Wildfire threats to housing stock and businesses

Heavy rainfall frequently floods city streets and damages houses and businesses

Lumber mill floods, threatening economy and jobs

Inadequate public transportation

Water treatment facility floods, threatening town water supply

Built to Last

Thriving Today and in the Future

No sustainability plan for adapting to climate change and population growth

Lack of sufficient communication channels to reach all members of the town with important information or to receive feedback on important issues

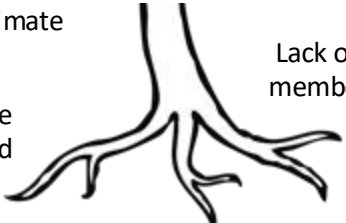

Lack of an economic plan to upgrade Main Street, diversify businesses and attract inward investment

Creek channelization and subsequent flooding puts more infrastructure at risk

Inadequate stormwater infrastructure leads to home and business flooding

Lack of sufficient city staff to write grants and meet all community needs

No housing assessment to identify most pressing housing needs

Challenge Tree
